

VIDEO CONFERENCING

MZS G-Suite: Google Meets

The School is committed to a “one platform” approach for all school-related video conferencing activities taking place between our students and faculty. This will allow the school to safely promote tool use and workflow consistency at all grade levels. This will also allow our school to effectively incorporate video conferencing activities that might include students from both campuses and across multiple grade levels.

Grade Levels: All

Platform: Google Meet accessed through our MZS G-Suite platform.

Access: How a student receives a G-Meet invite will be determined by the grade level and or the type of activity that will be taking place. G-Meet activity links might be forward in an MZS Google Email, posted in a Seesaw announcement, posted in a Google Classroom, or campus newsletter. Parents with younger children may need to contact the MZS ICT team for their child’s MZS Google Account information (UN & PW).
